UI/UX Designer and full-stack developer with a maker mindset. I prototype fast, design clean UIs in Figma, and ship small products end-to-end (Figma, React/Node, Python, MongoDB).

Open to UI/UX roles and freelance. Building Cloud foundations and leveraging AI tooling in my workflow.

EXPERIENCE

04/2024 – Present

Freelance Web Developer & Designer

- Designed/built multiple sites (Figma → React/Node), responsive UI, reusable components.
- Integrated headless CMS (Contentful, Ghost): content models + editorial workflows.
- Built & maintain an MTG Discord bot (Python, Discord API, MongoDB): game tracking, VC timers, player/deck stats; 100+ daily users.
- Deployed and maintained production builds (Vercel/Netlify/Heroku)
- Operate two online stores (Etsy/Shopify): **1,400+ orders**, **4.9★ avg** (300+ reviews); full support & fulfillment; empathetic comms and fast resolution.

2023 – Present

Various Short-Term Roles (non-IT)

- Customer-facing seasonal work in hospitality & agriculture; reliability under pressure; strong people skills (easy rapport, de-escalation, clear comms).

EDUCATION & CERTIFICATIONS
